

Information for Proposal Submission

GMP Production of Clinical Study Material

As a supplement to the call for proposals for the GMP production of clinical study material, applicants are requested to please note the following information:

The application procedure occurs in two stages. In the first step, a proposal outline is to be submitted to antrag-translatorik@ekfs.de by September 23, 2022. The outline may not exceed a maximum scope of two pages (without appendices, formatted in Arial 11 pt, single-line spacing) and can be written in German or English. The following points ought to be addressed thereby:

- What is the developmental status of the project, what is the medical background of the planned study (i.e. the medical need)?
- How much money is being applied for, and for precisely what is the money supposed to be used?
- What does the entire GMP production process cost, and how is the percentage supposed to be financed that is potentially not being covered by ForTra?
- Timetable and funding schedule for the clinical study: When can the study be initiated realistically, who can and/or who is going to finance it?
- Do property rights relevant to the project exist, and if so: Who holds them and for how long are they still valid before they elapse?

Eligible to submit proposals for non-profit funding by ForTra are clinical and medical scientists employed by academic research facilities (hospital clinics, research institutes, etc.) or other non-profit scientific entities. No projects can be supported in which property rights relevant to the project have already been assigned or licensed out to companies/spin-offs.

Appendices:

- Applicants' curricula vitae (CV) and list of publications. As applies to the list of publications: list current publications and those from the last five years (separation according to original and review papers); in each case, list all authors (using bold type to mark the applicant) and indicate journal impact factors; in the last two columns, please add a list of the first and last authorships using consecutive numbers – see online [“Publication List Template”](#))
- List third-party funding, both current funds and funding concluded in the last five years (applicant, title, funding entity, term and funding sum)
- Possibly pending or granted patents

**ForTra gGmbH für Forschungstransfer
der Else Kröner-Fresenius-Stiftung**

- The applicants' signed Declaration of Consent to the Storage of Data (can be downloaded [here](#)) in the event that this has not been readily submitted to EKFS on the occasion of an earlier application submission
